21. Why might people choose to build houses in floodplains?
22. Define remittances.
23. What has happened between gender and immigration in the recent/modern era say from 1980-1990?
24. Why were past obstacles environmental while mostly they are cultural today?
25. In what way does economics play a role in migration? What evidence do you have of this in figure 3-29?

Key Issue 4. Why do migrants face Challenges?

26. What is the Brain Drain? Why is it a problem for many nations?
27. Should a democratic nation allow unlimited political refugees to enter safely? Explain your thoughts.
28. Describe with specific examples how many immigrants are treated in the world today.
29. How many unauthorized immigrants are living in the USA today?
30. Define Chain migration. Describe why it explains why Iranians go to California or Detroit.

Internet Remittances: <http://siteresources.worldbank.org/INTPROSPECTS/Resources/334934-1110315015165/MigrationandDevelopmentBrief18.pdf>

1. Look at the graphs of remittances worldwide. Describe two parts of a trend you see in the data.
2. What is a remittance?
3. Why are they important parts of the story of immigration?

Internally Displaced People: <http://www.internal-displacement.org/> click on the map on the far right.

1. As a class we will divide the globe into 9 sections. You may work by yourself, or with a partner to create a photo story presentation/prezzi or power point on internal migration and external migration in that region.
 - a. Locate the nations on regional maps
 - b. Identify major routes of immigration that apply to this region, where are they going? How many? What barriers do they face?
 - c. Identify major pull and push factors
 - d. Quantify IDP problems in this region, explain what is going on.
 - e. Provide images appropriate to the IDP and regional immigration.
 - f. Voice over and motion to slides, which reflects production.
