

Air Pressure and Wind Notes

Name: _____

Read pages 532 to 536 and take notes. The first few sections are outlined for you but for the last few sections you need to create the questions as well as the answers, both sides of the chart. There may be more boxes than you need. You got this!

Main Idea/Question	Supporting Details/Answer
What is Air Pressure? Where is it pushing?	
How is air pressure measured?	
What is wind?	

Summarize your notes using complete sentences:
