## Stage 2 Scope and Sequence

The Core Focus on Math Stage 2 scope and sequence accounts for 150 class periods for instruction, targeted interventions and assessments. This allows for any remaining days to be used for additional components which may include (1) beginning of the year review and team building, (2) Tic-Tac-Toe extensions, (3) performance tasks, (4) state test review and (5) state testing.

## Compacted Scope and Sequence Overview Grades 7 \& 8

The Compacted Program follows the recommendations of the CCSS Appendix A Compacted Traditional Program. In the CCSSM Appendix A, students complete Grades 7, 8 and Algebra I content in Grades 7 and 8. This is done in the Core Focus on Math series by moving Core Focus on Geometry from Stage 3 to the end of Stage 2. The Grade 8 Compacted Traditional Program contains linear and non-linear functions as well as statistics using the texts shown below.
